

► Areti Solution

Areti helps sites and recruitment partners identify, qualify, engage, and schedule higher-quality patients with less manual screening burden.

Find the Right Patients

- Access medical records without a heavy site-by-site EMR integration
- Confirm eligibility using structured data and physician notes
- Identify high-probability patients before coordinator review

Engage without Friction

- 24/7 patient engagement across SMS, voice, chat, and email in multiple languages
- Pre-screen, educate, and schedule before site interaction
- Reduce drop-off with fast, consistent follow-up

Execute with Precision

- Open API for CTMS and calendar integrations
- Custom workflows aligned to site capacity and availability
- Real-time dashboards for engagement, drop-off, and KPIs
